With respect to any particular project, CGAS agrees to use due diligence to mobilize personnel and equipment in accordance with the timetable agreed with Member's representative requesting the same. Due to weather, traffic, and other variables, CGAS does not guarantee response within any particular time.

4. Performance of Services. In those circumstances where CGAS has accepted an assignment from Member, CGAS will use due diligence to achieve the objectives agreed upon with Member for that project, but cannot guarantee whether a particular result can or will be achieved, or will be achieved in any particular timeframe. Member acknowledges and accepts that despite the due diligence of CGAS, the project undertaken may not be successful or the result of CGAS's efforts could worsen the given situation. Except to the extent caused by the gross negligence or willful misconduct of CGAS, CGAS will not be responsible for the failure of its efforts to achieve the desired results or for any damage arising from its efforts. Payment for the goods and/or services provided by CGAS will be due as stated herein regardless of the results obtained. Member retains the right to instruct CGAS to discontinue its services at any time with or without cause. Member may limit its initiation of services to a notice of "mobilization/stand-by". If Member so limits its initiation of services, CGAS will not dispatch Spill Response Resources to the scene of a spill until Member instructs

CGAS to respond to the release. Upon receipt of such instruction, CGAS will respond to the release in the manner provided by this Contract. Upon CGAS's arrival at a release scene, Member's representative will give CGAS final authorization, either oral or written, to proceed accordingly. Charges for Spill Response Resources will be the same regardless if Spill Response Resources are placed in use or on "mobilization/standby".

5. Information to be provided by Member. When requesting services for a particular project, Member shall provide CGAS with the following information:

- Names and contact information for Member's authorized representative(s) for the project;
- Location of the project and any staging areas;

Member agrees to promptly advise CGAS of any additional information becoming available to it or changes or corrections to information previously provided, it being understood that CGAS will be relying on this information to assist it in ensuring the safety of its personnel and others at the work site.

6. Access to Work Site(s). Member is responsible for providing CGAS with suitable and reasonable access to all work sites, including locations at which CGAS may stage equipment, at no cost to CGAS. Notwithstanding anything to the contrary in Section 10, Member will be responsible for all property damage resulting from insufficient roads and/or staging areas and the reasonable activities of CGAS in gaining access or attempting to gain access to the work site(s). If CGAS is engaged to provide emergency response services and Member has not secured access to the work site(s) or staging areas from which the work site may be reached by land or water, CGAS may make arrangements that are reasonable under the circumstances with docks, landowners, marinas or other facilities to provide such access and these will be billed to Member on a cost plus basis of 15%. It is expressly understood that under exigent circumstances, facility owners may demand premium compensation for permitting such access.

CGAS will observe and require its employees and CGAS Subcontractors to observe relevant safety laws and regulations and applicable CGAS safety policies and procedures. While on a Member's facilities or vessels, CGAS will comply and require its employees and CGAS Subcontractors to comply with the Member's specific instructions concerning safety policies and procedures provided to them by the Member.

7. Independent Contractor. The Parties affirm that CGAS is an independent contractor. CGAS will at all times have the authority to and shall control the details of the work to be performed by it. All CGAS personnel shall at all times be under the sole direction of CGAS.

8. Waste Disposal. Member recognizes that CGAS is not required to accept any waste transportation or disposal services, in connection with Spill Response Resources provided by CGAS nor is CGAS obligated to

offer such waste transportation and disposal services. Member agrees that it is the owner of all wastes generated as a consequence of any project covered by this Contract, including, without limitation, oil, oily wastes, oily sorbents, hazardous wastes, hazardous substances or other contaminated materials. CGAS shall not be considered a generator, transporter, storer, treater or disposal facility with respect to hazardous materials or hazardous wastes as those terms are used in the Resource Conservation and Recovery Act (RCRA), as amended, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), or as those or similar terms are used in any similar state law governing transportation, treatment, storage and disposal of wastes. Member agrees it will be considered the generator of all wastes and will remain responsible at all times for the handling, transportation, treatment, storage and disposal of said wastes. Member will direct CGAS as to how its wastes are to be handled. Upon Member's request, CGAS will assist Member in arranging for the characterization of wastes and their transportation, treatment, storage and/or disposal. The failure of Member to instruct CGAS as to the disposition of wastes within 7 days of CGAS's written request for instructions, shall constitute Member's appointment of CGAS as its authorized agent to execute any required documents and manifests in Member's name and make arrangements for the transportation, treatment, storage and disposal of Member's wastes on Member's behalf and at Member's expense on a cost plus basis of 15%. In addition to the foregoing, Member agrees to pay any and all reasonable costs and attorneys' fees incurred by CGAS in connection therewith. ***NOTWITHSTANDING ANYTHING TO THE CONTRARY IN SECTION 10, MEMBER AGREES TO INDEMNIFY, DEFEND AND HOLD CGAS HARMLESS FROM ALL COSTS, CLAIMS AND LIABILITY ASSOCIATED WITH THE HANDLING, TRANSPORTATION, TREATMENT, STORAGE AND DISPOSAL OF WASTES ASSOCIATED WITH ANY PROJECT COVERED BY THIS CONTRACT.*** The provisions of this section shall survive the termination of this Contract and will continue to bind Member, its successors and assigns.

9. Payment, Security, Interest, and Fees. Unless otherwise agreed in writing and signed by an officer of CGAS, all invoices for goods and services presented by CGAS hereunder will be payable in full without discount 30 days from the date of the invoice. If all sums are not paid when due, interest will be payable on any unpaid balance at the rate of 1.5% per month, commencing as of date of the invoice. Member's obligation to pay for goods and/or services provided hereunder is not conditioned upon Member's recovery from any third party or underwriter, nor will CGAS look directly to any third party or underwriter for payment in the absence of a written agreement to do so, signed by an officer of CGAS. CGAS may condition its continued provision of goods and/or services to Member on immediate payment of outstanding charges and/or the provision of security by or on behalf of Member for payment of CGAS's outstanding and expected future charges, such security to be in a form acceptable to CGAS in its sole discretion. In the absence of such security, CGAS may demobilize its equipment at Member's expense or contract the equipment to another party or governmental entity for future operations. In the event CGAS provides necessary goods and/or services to a Member vessel hereunder, it is expressly agreed that CGAS shall be entitled to a maritime lien against said Member vessel to secure payment for necessities provided. Notwithstanding any clause herein to the contrary, CGAS may at any time demand adequate security in lieu of action to enforce any type of maritime lien(s) it holds and may, in the absence of security acceptable to CGAS, take judicial action to secure and/or enforce its lien(s). In the event CGAS is required to retain counsel to enforce its rights hereunder or as a result of Member's breach of this Contract, Member agrees to pay CGAS's reasonable costs associated therewith, including, without

limitation, its attorneys' fees.

10. Indemnity. Nothing herein shall be construed to deprive CGAS of the protection of any "responder immunity" provided under state or federal law. This section in no way limits the indemnity provisions of Section 8 dealing with waste disposal.

The Parties intend that the Contract be interpreted under the choice of law prescribed within Article 15: "Choice of Law", and the Parties have drafted the language in this Contract, including the indemnity language, with the belief and intent that it fully complies with and is completely enforceable under applicable law and is to be construed that it is as broad in scope as is permissible by applicable law. If, contrary to the Parties' stated intent to have fully enforceable indemnities, a court determines that any of the indemnity obligations under this Contract are invalid, illegal, or unenforceable in any respect, these obligations will be subject only to those exceptions and limitations required for the indemnity to be and remain valid and enforceable under applicable law.
